JOSHUA

**LESSON 13:** God destroyed Jericho in a most unusual manner. Israel marched around that city for six days, with the priests blowing seven trumpets. Then, on day seven, the people circled Jericho seven times, the priests blew the trumpets, the army shouted and the Walls of Jericho fell flat. The next city to be conquered was Ai. Since Ai was much smaller than Jericho, Joshua did not anticipate any problems. Our story continues in Joshua 7.
